Kelly Clarkson Forced To Lose 105 Pounds By 'NBC' Producers

Best known as a coach for The Voice, hosting the recent Billboard Music Awards
and a mom of four, Kelly Clarkson was forced to dropped over 50 pounds when the producers of 'The Voice' threatened to terminate her contract if she did not lose the weight.

Already being approved for the 16th season producers of 'The Voice' want Kelly Clarkson, to lose 50 pounds to accommodate her new role as head coach. As awful as it is to force a woman to lose weight, Kelly is actually contractually obligated to follow these requirements. The show's producers said they would support her through the time but if she did not meet the goal her contract would be terminated.

Frustrated with such an insane goal to meet in such little time Kelly actually got her lawyer involved but to no avail. Luckily for Kelly, the always generous Ellen Degeneres had caught wind of the ordeal and offered an easy solution for weight loss.

"I was really scared at first, this was a big role for me I couldn't afford to lose it. When Ellen called and gave me advice on how to lose the weight and stick it to those producers I was ecstatic." Said Kelly. "She pulled some strings and gave me a product that burned the fat in the 22 days as promised. I couldn't believe it, I owe her my life!"
"No Gimmicks, NO Surgery. I Lost The 50lbs With Ease!" - Kelly Clarkson

Ellen Gives Back

We got in touch with Ellen to see if she wanted to comment on her generosity and heroism regarding Kelly. In all-to-true Ellen fashion, she declined to comment saying anyone would have done it in her shoes, but she did agree to give us something for this article. Ellen convinced the manufacturers of Keto 101 to give away 5,000 free samples to readers of this article! We couldn't believe it! In order to do that however we were legally obligated to evaluate the product and disclose the results, you can find them below.
Losing weight often feels like an impossible challenge. We have evaluated numerous fad diets over the years. All too frequent the results are just shy of being painfully disappointing.

**Participants Showed Amazing Results From** **Keto 101**

One thing people on both sides can agree on is that the controversial, new supplement drastically works. According to an individual study, men and women who took the Keto 101 supplement for 8 weeks showed to loose an average of 16.5 pounds without additional diet or exercise. Another individual study showed that people taking Keto 101 lost an average of 6.7 percent of their total body weight, including 12.3 percent of their total body fat - with zero side effects.

In fact, not only were there not any side effects, but people using the supplement actually experienced improved health measures across the board, including reductions in bad LDL cholesterol, triglycerides, and blood sugar.

And if all that weren’t reason enough to have desperate slimmers stocking up,
researchers from an external entity found that people taking Keto 101 experienced a significant decline in cravings for sweets and other foods high in carbohydrates - likely due to the nutrient’s positive effect on insulin and blood sugar counts. It worked for Kelly, but would it work for us?

**Putting Keto 101 To The Test**

The reason why most diets fail, in our opinion, is that they impose unrealistic restrictions on how you live your life. Many dietitians say eat lots of protein others emphasize carbohydrates. In either case, you're left with having to make rather drastic changes to the types of food you eat, when you eat it. In this monthly issue, our sponsors gave me a monthly supply of Keto 101 so I could take an in-depth look at this promising new weight loss trend.

**Keto 101** has been shown to:

- Burn fat as primary source of energy
- Enhance energy and strength
- Increase the speed of metabolism by 70%
- Deliver nutrients to muscles at a faster rate
- Boost Adipocytes production of Leptins by 130% which cuts your appetite down
- Eliminate bad toxins that have built up over the years

**My Results**- My free bottle of Keto 101 was delivered in just a few short days and I was only charged for shipping. Keto 101 is one of the most concentrated and pure forms of Forskolin on the market and I was eager to begin the test. Below you can see my results and read about them.
**Week one**

After 1 week on the new routine, I was surprised by how fast and dramatic the effects were. My energy level was up and I wasn't as hungry as usual. The appetite curbing was a welcome side effect of the Keto 101. I felt fantastic and best of all, I didn't have to change anything about my daily routine.

On Day 7, I got on the scale and used a caliper to check my body fat. I couldn't believe my eyes—I had lost 4 lbs of fat in my first week!

But still I wasn't completely convinced! I know they say you lose a lot of water weight at the beginning of any diet. I wanted to wait and see the results in the upcoming weeks.

---

**Week Two**

After 2 weeks of using Keto 101 I had more energy and focus than ever. The detoxifying properties were allowing me to sleep through the night, every night - I swear I was burning fat in my sleep too. I managed to lose another 6 lbs of fat, and started to see the outline of my 6-pack coming back, something my boyfriend obviously loved. After just 14 days I was feeling quite confident that this product were the real deal.
Week Three
After 3 weeks, all my doubts and skepticisms had vanished! I am down another 6.5 lbs. And I still have a ton of energy. Quite often, around the third week of other diets, you tend to run out of steam. But with the Keto 101 my energy levels don’t dip, instead they remain steady throughout the day.

Week Four
After the fourth week, my final results were shocking. I lost an unbelievable 31 lbs since starting the Keto 101 diet! Actually everyone at Woman’s Health is kicking themselves for not having volunteered to be the guinea pig. Using the Keto 101 in week 4, I lost an additional 11 lbs.

By the time the full 4 weeks were up, my body was was a cool 30 lbs lighter and gosh darn it I looked great.. My friends, my family and even the co-workers in my building were shocked at how different I looked. Some were convinced I was lying about not getting surgery. Nope! A few even said my
transformation was a miracle. Well, who knows? :) 

Conclusion: Keto 101 has helped me open my eyes and see that there is a diet product that actually works. I'm more confident with my body now than ever before!

**Will This Work For You?**

Using Ellen's fat burner, I removed about 30 lbs of my unwanted fat and the test process was something of a "journey to self-discovery" for me! I could not be happier with the way things went, and am even more thankful for Ellen and Kelly for sharing this wonderful product.
